1. PROJECT OVERVIEW

The Zico Platform is a multi-role digital service distribution system that allows administrators and agents to sell digital services including data bundles, boosting services, result checkers, and AFA registrations.

The platform operates through a hierarchical admin-agent structure allowing administrators to manage agents, track sales performance, process transactions, and distribute services through automated APIs or manual fulfillment systems.

The system is designed to support scalable agent networks, automated role upgrades, and performance-based incentives.

Key services include:

- Data Bundles
- Boosting Services
- Result Checkers
- AFA Registrations

2. SYSTEM ARCHITECTURE

The platform consists of two main portals.

2.1 Main Admin Portal

Acts as the central control system for the entire platform.

- Managing administrators and agents
- Controlling product packages and pricing
- Managing supplier API integrations

- Monitoring platform performance
- Managing financial transactions and withdrawals

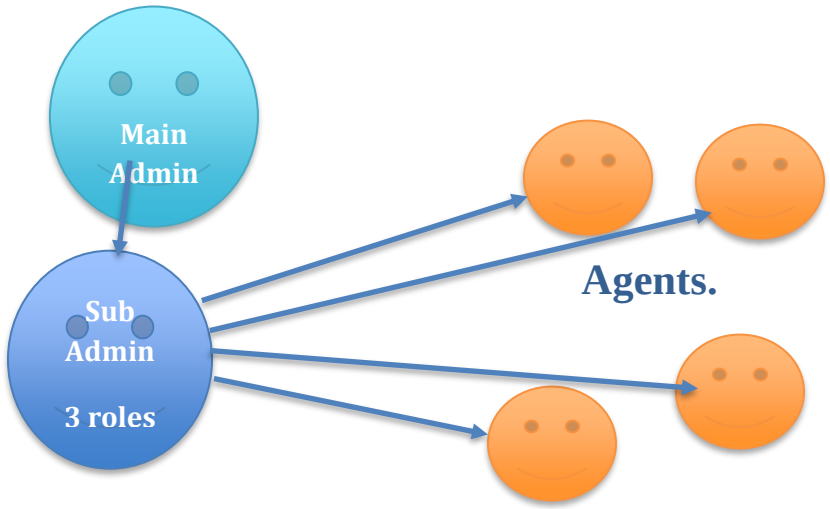

2.2 Sub-Admin Portal

Allows administrators to manage their own agents and operations.

- Manage agents
- Process orders
- Manage wallet balances
- Monitor sales performance
- Configure service availability

3. USER ROLES & HIERARCHY

Level	Role	Description
Level 1	Main Admin	Full system owner with global control
Level 2	Admin	Basic administrative user
Level 3	Super Admin	Upgraded admin with better pricing
Level 4	Professional Admin	High-level admin with expanded agent network
Level 5	Agent	Users operating under admins to sell services

4. ADMIN ROLE LEVELS

4.1 Admin (Default Level)

Every user who signs up automatically becomes an Admin.

Capabilities:

- Recruit and manage agents
- Receive standard product prices from suppliers
- Sell services through the platform

Qualification: Automatic role assigned upon signup.

4.2 Super Admin

Super Admins receive discounted product pricing and higher profit margins.

Benefits:

- Reduced service pricing
- Higher profit potential

Qualification Requirements:

- Must be active for at least 3 months
- Must have at least 30 agents
- Average daily sales of at least GHS 500

4.3 Professional Admin

Professional Admins receive greater pricing advantages and expanded networks.

Benefits:

- Higher price discounts
- Ability to create agents under their agents

Qualification Requirements:

- Active for at least 6 months
- At least 70 agents
- Average daily sales of GHS 1000

5. AUTOMATIC ROLE UPGRADE SYSTEM

- Account age
- Agent count
- Daily sales performance

When criteria are met the system automatically promotes the account.

6. MAIN ADMIN SYSTEM FEATURES

6.1 Agent Management

- Approve or reject agent registrations
- Monitor login activity
- Track agent system activities

6.2 Admin Performance Monitoring

- Sales performance per admin
- Growth trends
- Agent recruitment statistics
- Revenue generated per admin

6.3 Product & Package Management

- Add service packages
- Edit service packages
- Set global pricing
- Enable or disable services
- Mark services Available / Out of Stock / Closed

6.4 Supplier API Integration

The platform should support multiple supplier APIs.

- Automated product delivery
- Service activation
- Real-time order fulfillment
- Ability to turn APIs ON or OFF

6.5 Wallet Management

- Credit Sub-Admin wallets
- Adjust wallet balances
- Monitor wallet transactions

7. SERVICE PACKAGES

- Boosting Services (API Delivery)
- Data Bundle Packages (API Delivery)
- AFA Registration (Manual Pickup)
- Results Checker Cards (Manual Fulfillment)

8. ACCOUNT & SECURITY FEATURES

8.1 Password Reset System

- Email verification
- Secure reset link authentication

8.2 AI Customer Support

- Customer support inquiries
- Service guidance
- Troubleshooting assistance

8.3 Complaints & Suggestions System

- Phone number
- Email
- Message / Complaint
- Suggestions

9. PAYMENT SYSTEM – Paystack Integration

- Track deposits made by Sub-Admins
- Automatic wallet funding
- Transaction verification
- Payment history logging

10. ORDER PROCESSING SYSTEM

The platform supports two order processing methods.

- Automated Processing

  Orders processed automatically through supplier APIs.

- Manual Processing (Backup)

  Manual order pickup or file-based processing when APIs are off.

11. WITHDRAWAL SYSTEM

- Withdrawal request submission
- Bank or MoMo account details submission
- Withdrawal approval and processing
- Withdrawal history tracking

12. MONTHLY MAINTENANCE FEE SYSTEM

Minimum maintenance fee: GHS 20 per month.

- Automatic tracking of payments
- Payment reminders
- Temporary account suspension for non-payment

13. SUB-ADMIN ACCOUNT FEATURES

- Credit agent wallets
- View agents
- Delete agent accounts
- Block or suspend agents
- Control order processing via APIs
- Control service availability
- Monitor agent performance and profits
- Product management and pricing
- Fund agent wallets via Paystack or MoMo
- Submit withdrawal requests
- View sales analytics
- View transaction history
- Control package visibility for agents
- Complaint reporting system

14. SYSTEM GOALS

- Create a scalable digital service distribution network
- Allow admins to build agent sales networks
- Automate digital product delivery
- Provide performance tracking and analytics
- Support manual service fulfillment when needed
- Ensure secure payment and withdrawal systems

15. App Details and Agreement

15.1 APP DETAILS

NB: provide these details ASAP.

Item	Response / Details
Company/name	
Brand / trading name	
Primary contact person	
Logo , Provide if available	
Phone number	
WhatsApp number	
Email address	
Theme of App .Provide colors code if available	
App Domain	tech.zico.com
Website / domain (if any)	
Reference websites, Provide website Link.	
Preferred communication channel. Email / WhatsApp / Phone / Meetings provide WhatsApp Group link	

15.2 Agreements

- Monthly Subscription of your Hosting service 7 USD/Mo
- Database Free.
- In case of any addition Outside the PRD above Later, there will be extra Charge.

- Do you need SMS integration Alert for some Notifications? If yes. You will need Arkasel Account to purchase one so I can have the API. **ref: https://arkesel.com/**
- Delivery Duration: 3-4 Weeks or less.

THANK YOU
